Account Transfer Investor Disclosure

In our business we are dedicated to continually improving Client Service. This Investor Disclosure and informational document was developed to help you understand the account transfer process. *Read this document carefully before signing the **Investor Authorization** section*. Should you have any questions after reading this document, please contact a **Transferly Wealth Investment Advisor.**

What is the difference between In Cash and In Kind?

In Cash means that all your assets which are not currently in liquid form, are to be liquidated, sold, redeemed, etc. in order that your account can be transferred to **Transferly Wealth** in the form of cash.

Important Note: if you have indicated an *In Cash Transfer* of your account, the trades will be executed at market. The trades will be placed on a best efforts basis subsequent to the receipt of the transfer form and are subject to normal commission charges. In order to avoid delays, you may place the trades yourself with the relinquishing institution at the time of signing this transfer form.

In Kind means that you want the account transferred, as is. If you hold investment products and a cash balance, then the investment products may be transferred as well as the cash balance in their current state.
If you select *In Kind* you cannot also select *Dollars*. In the situation where you prefer to specify a dollar value rather than number of shares, please complete similar to the following example:

	Symbol	Quantity	$ Amount	Description
O In Cash ● In Kind	NWT128		$2500.00	NEI Canadian Dividend Fund
O In Cash ● In Kind	BAM	100		Brookfield Asset Management

What is the difference between transferring All In Kind and All Assets (mix – in kind & in cash)?

While **In Kind** means that you want the account transferred *as is*, transferring the account **All Assets** allows you to specify (by attaching a list of instructions) which investment products to sell and transfer in as cash and which ones to transfer as is in kind.

How long will my transfer take?

The time required to completely transfer your account will for the most part depend on the type of account you are transferring and the type of investment products you currently hold. Please note that all your assets may not all be transferred at exactly the same time.

Under current IIROC regulations, **ATON-eligible securities** should be transferred within **10 business days** from the time of receipt by the Relinquishing Institution. **Non-ATON eligible securities** may take up to **25 business days or longer** depending upon volumes at the relinquishing institution**.**

Types of Investment Products

Mutual Funds

Currently, mutual fund products take longer to fully transfer, and may result in a possible delay into your account, due to the requirement of re-registering the mutual fund at the Fund Companies.

Guaranteed Investment Certificates & Term Deposits

Generally, a Guaranteed Investment Certificate (GIC) **is not transferable In Kind (as is) prior to the maturity date.** Most GIC's must be transferred In Cash upon their maturity. There are some exceptions, please check the terms and conditions with the Institution that currently holds your investment.

Other Investment Products

There are many other investment products which may be non-transferable, non-redeemable or subject to other delays. Some of these products include Mortgages, Foreign Securities, Non-transferable Bonds (minimum denomination requirements).

Rejected Transfers

An account transfer request may be rejected by the Relinquishing Institution for a number of reasons, such as, insufficient funds to cover fees, account not in good standing, i.e. under margin, short position(s), etc. If for any reason your transfer has been rejected by the Relinquishing Institution, they may return the transfer to **Transferly Wealth** unprocessed. *When the rejection has been rectified, the transfer process must begin again with the Relinquishing Institution using the date of receipt of the corrected transfer documents as the start date of the transfer process.*

How much will it cost to transfer my account?

Transfer Fees

Some Institutions charge a Transfer Out fee, although the specific cost will vary from firm to firm.

Important Note: Please ensure that you have sufficient funds available in your account at the Relinquishing Institution or attach a cheque payable to the Relinquishing Institution to cover transfer and administration fees. If sufficient funds are not available, the Relinquishing Institution may reject the transfer unprocessed, thus causing a Lengthy Delay.

FHSA Transfers

Excess FHSA amount. For more information, go to canada.ca/contribute-transfer-too-much-FHSA

From Spousal RRSP to FHSA

I understand that if I intend to transfer property from a spousal or common-law partner RRSP under which I am the annuitant, I am not permitted to transfer any amounts from the RRSP if my spouse or common-law partner has contributed any amounts to any of my spousal or common-law partner RRSPs during the current year or the two preceding calendar years. If I make such a transfer, the amount of the transfer will be:

- a taxable withdrawal from my RRSP. For more information, go to canada.ca/withdrawing-spousal-common-law-partner-rrsp
- a new contribution to my FHSA. For more information, go to canada.ca/participating-fhsa

From FHSA to RRSP or RRIF

I understand that if I have an excess FHSA amount at the time of the transfer and I transfer property from my FHSA to my RRSP or RRIF, any portion of the amount transferred that exceeds the total fair market value (FMV) of all the property held in all of my FHSAs at the time of the transfer **minus** the excess FHSA amount at the time of the transfer, will be treated as both:

- a taxable withdrawal from my FHSA, which must be included as income on my income tax and benefit return for the year of the transfer.
- a new RRSP contribution at the time of the transfer to my RRSP or RRIF.

For more information, go to canada.ca/transfers-between-fhsa-rrsp-rrif.
